

# Pega Mentored Training program

Develop consultants' skills while  
keeping them on billable projects

# Pega Mentored Training Program

The new Pega Mentored Training program allows Pega consultants and integrators to remain on billable projects while still developing their skills in a timely manner. Let us help you to build a pool of highly skilled certified Senior Systems Architects (SSA) and Lead System Architects (LSAs) to best serve your clients and meet Pega Partners distinction requirements.

## Training methodology

At higher certification levels, having an instructor reinforce or make sense of complex concepts is imperative to the learning experience. This program combines the convenience of self-study with the support of remote instructor-led training and includes all applicable exam fees. An instructor guides students through self-study content while providing immediate feedback and reframing content into real-world scenarios. While traditional instructor-led courses are 10 days, mentored training only requires attendance at one 3-hour remote session per week over 8 weeks (24 hours total). This allows candidates to continue working while advancing their skills.

## Course offerings

- **Mentored Training: Senior Systems Architect 8.7** is an intermediate course designed to help further Pega Platform™ application development knowledge. Lessons focus on tasks that a senior system architect performs to develop a Pega application and prepare candidates to earn their SSA certification. This cost-effective offering is \$1050 USD.
- **Mentored Training: Lead System Architect 8.6** is for senior system architects who are ready to take on the lead system architect (LSA) role. The course covers topics required to design a Pega solution that provides an optimal user experience, performs well, and delivers value to the business quickly. The course prepares candidates to earn their CLSA certification. This cost-effective offering is \$1500 USD.

## Benefits

- **Net savings:** in addition to keeping consultants working while they build their skills, [research](#) shows it can cost as much as 6X more to hire from the outside than to build from within.
- **MDF:** Partners can fund these programs via [Pega's Market Development Funds](#).
- **Partner discount:** Partners with a distinction in the Pega Partners program are eligible for discounts of up to 75%. Discounts are based on the highest distinction in the sales region. [Learn more](#).
